SUMMARY

Frontend Web Developer skilled in HTML, CSS, JavaScript, React.js, and responsive UI development. Experienced in building scalable web applications, interactive dashboards, and user-centric interfaces. Passionate about full-stack development, AI integration, and data-driven web systems.

SKILLS

Programming Languages: Python, C, JavaScript
Frontend Development: HTML, CSS, React.js, Bootstrap, Tailwind CSS
Backend / Tools: Node.js, Express.js(Basic), Firebase, Git, GitHub
Data & Visualization: Pandas, NumPy, Matplotlib, Power BI
Design Tools: Figma, Canva

PROJECTS

- Naviel (Company Website)** – *React, HTML, JavaScript, Tailwind CSS* – (Jan, 2026) [GitHub](#) | [Live Demo](#)
- Developed a **responsive company web application** with React for a modern digital business presence.
 - Built structured multi-page UI including **Home, About, Services, Projects, and Contact modules**.
 - Implemented **contact form handling system** for user inquiry submission and data capture.
 - Used **component-based architecture** with React and styled using **Tailwind CSS**.
 - Improved **frontend performance and accessibility** across devices and browsers.
- Profile Card Generator** – *HTML, CSS, JavaScript, Firebase* – (Feb, 2026) [GitHub](#) | [Live Demo](#)
- Developed a dynamic **web application for profile card generation** using JavaScript.
 - Integrated **social media APIs/links** including Gmail, LinkedIn, and GitHub.
 - Implemented **local storage persistence** for session-based user data retention.
 - Used **Firebase backend services** for secure data storage and retrieval.
 - Added **form validation and input sanitization** for secure user input handling.
- AquaMart** – *HTML, CSS, Git, GitHub, Netlify* – (Nov, 2025) [GitHub](#) | [Live Demo](#)
- Developed a fully functional **e-commerce web application** for aquarium product sales.
 - Implemented **product categorization and structured navigation system**.
 - Optimized **frontend performance and cross-browser compatibility**.
 - Applied modern **UI/UX design principles** for improved user experience.

EXPERIENCE

- Frontend Developer** Dec 2025 – Present
Naviel Advanced Technology Engineering *Surampalem, Andhra Pradesh*
- Developed responsive login interfaces using HTML, CSS, and JavaScript, improving mobile usability and cross-browser compatibility.
 - Implemented interactive UI components for GPS tracking dashboards to enhance real-time data visualization.
 - Built frontend modules for internal platforms including **EventHub** and the **Naviel** company website.
 - Optimized UI performance and ensured responsive layouts across desktop and mobile devices.
 - Collaborated with backend developers and maintained version control using Git and GitHub.

EDUCATION

- Aditya University** Surampalem, Andhra Pradesh
Bachelor of Technology in Electronics and Communication Engineering, CGPA: 8.23 / 10 *2024 - Present*
